VIRTUAL ASSISTANT

I'm Gisela and I'm super happy you are here!

I am a Kajabi, Showit and TECH nerd. I have a passion for helping business owners strategize, implement and automate their business. I have over 15 years of business administration experience both in corporate and supporting small business owners like yourself.

A little bit about me:

✈️ - I love to travel especially to the ocean (it's "home" to me), and I take way too many photos... usually of my food but I never post them 😊 #sidehustle maybe?

☕ - I'm a coffee snob and love a good glass of wine or champagne on a Friday to celebrate the week.

- I'm a mom to an awesome mini-me, who is as sassy as her mama . She always reminds me of why I am doing this, to create space for myself and other business owners to finally get that "work/life" balance we crave!
